AMMACH 

AMMACH is a UK helpline, a resource structure and a point of connection for people who have experienced positive and/or negative contact with alien & non-human entities and intelligences. We can also offer support for people who have experienced the phenomena of mind control and mind manipulation. To bring these issues into wider awareness we are building a video archive of online first hand witness testimony which may be viewed on our Youtube channel **TheAMMACH**.

This three day conference will be the first of its kind in the UK and over three days we will host lectures and talks on the issues of alien and non-human interaction as well as looking at the terrestrial and military issues of mind control. This unique event brings people who have experienced these kinds of contact together with academics, researchers & UFO-Exopolitics activists who study this phenomena. In the spirit of openness and disclosure, this event is open to the general public and we urge anyone with even a passing interest in these areas to attend. For more event information including speaker names visit our website or telephone/email us.

This three day conference begins on Friday evening with the John Mack Memorial Lecture. Dr. John Mack was a Harvard professor and one of the first academics to study the area of alien and human interaction. The lecture will cover aspects of his life and work as well as its relevance today. A shared table buffet follows and to round the evening off, a very special space and UFO themed disco till the early hours. On Saturday night the first Budd Hopkins Award will be presented to an individual who has contributed to this subject area in a significant manner. This will be followed by a UFO and alien themed cinema night featuring rarely seen films.
