

STOP! THINK! QUESTION!

ONE DAY'S HONEST MEDIA COVERAGE AND THE ENTIRE COVID NARRATIVE COLLAPSES

- Not all journalists toe the government line.
- Not all journalists are prepared to let medical discrimination take hold unchallenged.
- Not all journalists turn a blind eye to facts about the PCR test cycle rates, vaccine harm and lockdown-caused deaths.
- Not all journalists are afraid to speak out and hold authority to account.
- Not all journalists are reluctant to push back against the Government's fear propaganda.

Help us spread the word to other journalists who are unaware of the underhand motives at play or who are struggling to get counter-narrative articles published.

THERE MUST BE CHANGE FROM WITHIN!
