The Bible Verse Fused To 9/11 Rubble Exposes an Important Message

(<https://www.godupdates.com/bible-verse-fused-911-rubble/>)

“In a time of deceit telling the truth is a revolutionary act.” George Orwell
Galatians 4:16 *So, have I become your enemy by telling you the truth?*

“On March 30, 2002, FDNY Firefighter Steven Kuefner (E 302/L 155) was searching for victims at Ground Zero and came upon a torn Bible **fused to a piece of metal.**” (<https://collection.911memorial.org/Detail/objects/117440>) This unexplained fusion of steel, concrete, paper and leather of a red letter, center column reference version of the King James Bible was given to local NYC photographer and 911 archivist Joel Meyerowitz. The artifact, seen right and below, publicly surfaced around the 10-year anniversary and now resides at the 911 Memorial & Museum in NYC (<https://www.911memorial.org/>).

Even if one attaches miraculous relevance to any verse of the Matthew 5:30-45 passage, necessary questions must be asked and answered before you can “turn the other cheek”, “let him have your cloak”, “go another mile”. This KJV Bible was not burned or scorched. Paper spontaneously combusts at 451 Fahrenheit. Steel melts at 2550 to 2790 Fahrenheit. The quartz sand in concrete melts at 3000 Fahrenheit. The cement in concrete melts at 2820 Fahrenheit. How did this melding, fusing, not-burning, agglomeration of steel, concrete, paper and leather happen? What was the destructive mechanism? What technology brought about such an other-worldly result?

Accurately determining what happened by examining facts and evidence must come before determining who caused this ‘low temperature fusing’ of disparate materials on September 11, 2001. The importance of precise word choice in describing this artifact and the actual events at the World Trade Center Complex 21 years ago cannot be overstated. Organic paper and leather do not melt into inorganic steel and concrete. Steel and concrete do not melt into each other. There is no scorching around the edges of the pages. The fused bible was not burned or combusted in whatever process that caused these dissimilar materials to be combined at the molecular level into a composite, physical whole. This artifact alone proves that something other than aviation fuel fires and falling debris destroyed all **SEVEN (7)** of the World Trade Center buildings. The fused bible eliminates jet airliner impact, controlled demolition, bombs-in-the-buildings, thermite/nano-thermite and micro-nukes as viable explanations for what happened on September 11, 2001, ab initio.

³⁰ And if thy right hand offend thee, cut it off, and cast it from thee: for it is profitable for thee that one of thy members should perish, and not that thy whole body should be cast into hell.

³¹ It hath been said, Whosoever shall put away his wife, let him give her a writing of divorcement:

³² But I say unto you, That whosoever shall put away his wife, saving for the cause of fornication, causeth her to commit adultery: and whosoever shall marry her that is divorced committeth adultery.

³³ Again, ye have heard that it hath been said by them of old time, Thou shalt not forswear thyself, but shalt perform unto the Lord thine oaths:

³⁴ But I say unto you, Swear not at all; neither by heaven; for it is God's throne:

³⁵ Nor by the earth; for it is his footstool: neither by Jerusalem; for it is the city of the great King.

³⁶ Neither shalt thou swear by thy head, because thou canst not make one hair white or black.

³⁷ But let your communication be, Yea, yea; Nay, nay: for whatsoever is more than these cometh of evil.

³⁸ Ye have heard that it hath been said, An eye for an eye, and a tooth for a tooth:

³⁹ But I say unto you, That ye resist not evil: but whosoever shall smite thee on thy right cheek, turn to him the other also.

⁴⁰ And if any man will sue thee at the law, and take away thy coat, let him have thy cloak also.

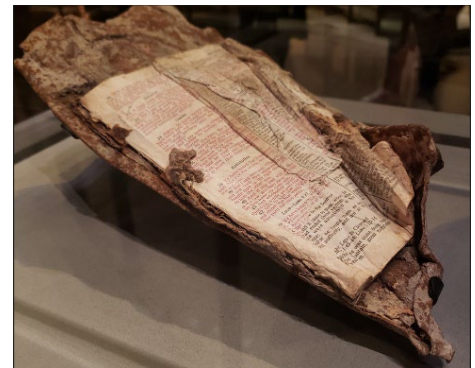

⁴¹ And whosoever shall compel thee to go a mile, go with him twain.

⁴² Give to him that asketh thee, and from him that would borrow of thee turn not thou away.

⁴³ Ye have heard that it hath been said, Thou shalt love thy neighbour, and hate thine enemy.

⁴⁴ But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you;

⁴⁵ That ye may be the children of your Father which is in heaven: for he maketh his sun to rise on the evil and on the good, and sendeth rain on the just and on the unjust.

“The best way to control the opposition is to lead it ourselves.” Vladimir Lenin
Ephesians 5:11 *Have nothing to do with the unfruitful deeds of darkness but expose them.*

The fused Bible should open the mind to just how much has been intentionally hidden, not only by mainstream media and US Federal Government, but by those who allege to be 911 ‘truth seekers.’ The most infamous of these ‘truth seekers’ is Richard Gage, founder of Architects and Engineers for 911 Truth. Gage, AE911 and its ‘experts’ allege that WTC 7 was brought down by controlled demolition. Before that claim is factually refuted, Gage’s statements concerning how many buildings at the World Trade Center Complex were destroyed on September 11, 2001, demand examination.

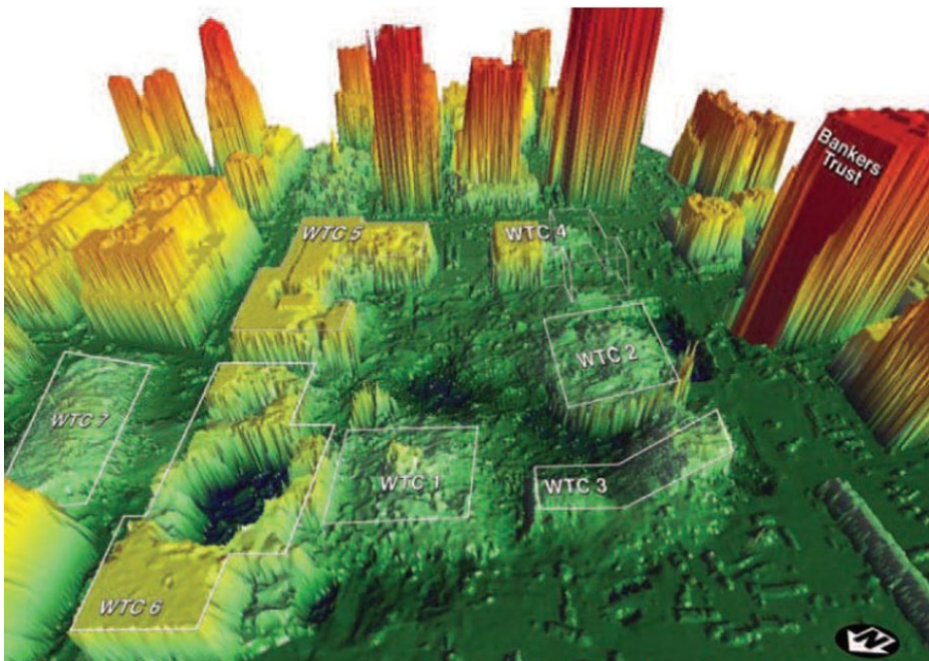

While being interviewed on May 13, 2021, by Shaun Attwood (*Shaun Attwood presents AE911Truth founder Richard Gage AIA* viewed at https://www.youtube.com/watch?v=lo_cXUHulp4&t=2s), Gage declares that 3 towers were destroyed that day. Rightly proclaiming the US FedGov official story to be patently absurd is one thing, but Gage/AE911 Truthers grossly misrepresent and/or intentionally obfuscate what actually happened. Richard Gage is a pathological liar.

Shaun Attwood @ Time Index 1:46: “What got you interested then? What’s your background? What got you interested in 911?”

Richard Gage @ Time Index 1:51: “I have been an architect for 30 years and in 2006 I was shocked to hear on the radio a gentleman David Ray Griffin who has now written 12 books on the subject of 911 truth and here in the Bay Area ... I had never heard any other alternative theory as to how these towers came down and **I am talking not just two towers but three.** World Trade Center 1, 2 and World Trade Center Building 7 and I did not know ... did not know a third tower came down. I mean this is a 47-story skyscraper that dropped like a rock straight down uniformly, symmetrically into its own footprint on the afternoon of 9/11. And when I saw this later the next day ... I was ... I was just shocked. I mean ... I am an architect; this should have been the most studied building failure in all of history, after all it wasn’t hit by a plane like the first two towers. So, I put my nose to the grindstone, did a lot of research, put together a PowerPoint based on the work of Steven Jones originally, and he’s a physicist formally from Brigham Young university.”

Richard Gage @ Time Index 3:30: “We now have 3500 Architect and Engineers signed on to the petition **demanding a new investigation into destruction of these three towers.**”

Richard Gage, Leroy Hulse, David Ray Griffin, Steven Jones, James Corbett, Alex Jones and the collective architects and engineers of AE911 are either blind as a bat, cannot count past 3 or something diabolical is at work. They willfully omit the fact that World Trade Center Buildings 3, 4, 5 and 6 were also dis-integrated on September 11, 2001. At left is lidar taken 9/16-23/2001 (<https://en.wikipedia.org/wiki/Lidar>).

Bottom left is the **8 story, 93’ tall, 538,000 sq. ft. WTC 6** building with a huge gaping hole scooped out from the roof to below ground level. Its dark maw **was not filled** with fallen debris from the **110 story, 1,368’ tall, 3.501 million sq. ft. WTC 1**, which was to the immediate right. Also note, the remaining roof area of WTC 6 is not piled up with fallen debris from the destruction of WTC 1.

The flattened WTC 7 is immediately left of WTC 6. WTC 5 is immediately above WTC 6. WTC 4 is immediately right of WTC 5. WTC 3 is immediate right of WTC 1. WTC 2 is above WTC 3 and below WTC 4. The debris piles of both the **47-floor, 741’ tall, 1.682 million sf. ft. WTC 7** and WTC 1 are significantly shorter than the 93’ roof height of WTC 6.

“People only see what they are prepared to see.” Ralph Waldo Emerson

Psalm 107:7 *No one who practices deceit shall dwell in my house; no one who utters lies shall continue before my eyes.*

When Ground Zero is first viewed with new eyes and ears, the Crayola colored lidar image is a visually softer and emotionally easier introduction to the ghastly devastation. The following details and damage signatures have not seen by many, seen by some and not comprehended by almost everyone.

The figure at the left shows the lack of debris at the base of 1,368' tall WTC 1 and the gaping, eaten out 93' tall WTC 6. Consider the following:

- Fallen debris is not filling the WTC 6 wounds and could not have caused them.
- The absence of debris, column segments and etcetera on the roof of WTC 6, now covered in dust.
- The grey-blue dome of WFC 2 (World Financial Center 2) is pristine, undamaged by 'falling debris' when WTC 1 was destroyed.
- Below the yellow lettering **WTC 1**, note the iconic trident shape of the lower exterior columns. Each was a combination of 3 exterior, smaller columns that came together approximately 30 feet above ground level and encircled the lobbies of WTC 1 and WTC 2.
- Except for vestigial sections of the exterior columns, the WTC 1 debris pile was about 20' or less.

Where did the 500,000-ton mass of WTC 1 construction materials go? How did the 1,368' tall WTC 1 constructed of steel columns, aluminum cladding, concrete flooring, filing cabinets, glass windows and bathroom toilets simply disappear? How was the majority of WTC 6 scooped out down to the basement? What destructive mechanism caused the devastation seen at all 7 of the World Trade Center buildings and yet nearby buildings like WFC 2 (not part of the WTC Complex) were relatively unscathed? Known explosives (chemical or nuclear) create 3-dimensional, spherical blast signatures (not in evidence) and not the cylindrical, top-down destruction seen at WTC 6. Any controlled demolition that uses conventional chemical explosives would have left a debris pile of about 15-20% of the original building height. The debris piles for WTC 1 and WTC 7 were much less than 5% of original building height.

At left the 25' globe statue previously in the Austin J. Tobin Plaza can be seen between the Twin Towers. The 22 story, 242' tall WTC 3 Marriot hotel is in the background. These images provide scale and context to compare the height differences of WTC 6, WTC 1 and WTC 7.

Failing to recognize, mention and investigate the anomalous destruction of WTC 3, 4, 5 and 6 by Gage, AE911, Hulse, Jones et al is unconscionable. It is akin to a police investigator arriving at a fresh crime scene with seven murdered family members lying next to each other, stepping over 4 of the 7 dead bodies and declaring that only 3 people are dead. The rank-and-file membership of AE911 and Professor Leroy Hulse (Emeritus Professor of Civil Engineering at the University of Alaska-Fairbanks) should withdraw all association with Gage/AE911. Otherwise, they knowingly participate in criminal willful blindness (<https://definitions.uslegal.com/w/willful-blindness/>), misprision of a felony (<https://www.law.cornell.edu/uscode/text/18/4>) and misprision of treason (<https://www.law.cornell.edu/uscode/text/18/2382>).

“Blind belief in authority is the greatest enemy of truth.” Albert Einstein

2Tim 1:7 *For God has not given us a spirit of fear, but of power and of love and of a sound mind.*

As a first step out of the 911 mind control/psychological bondage, many jettison the US FedGov official faerie tale and explore the anomalous destruction of WTC 7. The two most well-known explanations of what happened at WTC 7 are (1) the NIST explanation of the collapse due to fire having weakened the internal structure and (2) controlled demolition (the ‘authorized’ alternative explanation) posited by the likes of Richard Gage/AE911 Truth. In the next excerpt from the Shaun Attwood interview, Gage declares unequivocally that **WTC 7 was taken down by a ‘classic controlled demolition’.**

Shaun Attwood @ Time Index 3:46: “Why doesn’t the government want people like you looking at this? Wouldn’t they want the truth to come out?”

Richard Gage @ Time Index 3:51: “Uh, I would hope that they would. I’ve found in my own experience that many people are not emotionally or psychologically capable of digesting the implications of the destruction of these towers ... uh ... by purposeful controlled demolition which is what the evidence that we are going to talk about today actually shows. It changes our world view. It implies a level of conspiracy that most of us are incapable of handling. It brings about incredible fear. Our most fundamental fears that our own authorities are capable of the wanton murder of thousands of our own citizens in order to manipulate us all psychologically to go to war in this case in the Middle East in a false flag operation, which is what governments do to manipulate their citizens by attacking themselves and then blaming it on another country and using that as an excuse to go to war with that country in this case not only Afghanistan but Iraq also and subsequent countries which are still being forcefully occupied in parts ... Syria for instance ... Libya being invaded etcetera, etcetera.”

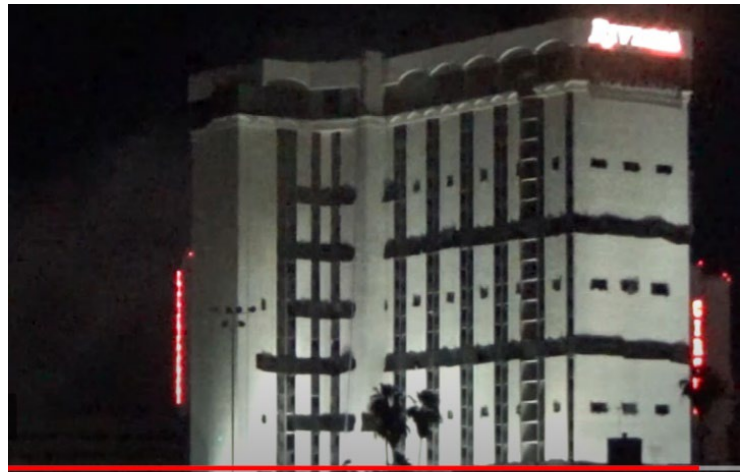

Richard Gage @ Time Index 8:00: “... the east penthouse (*of WTC 7*) has already fallen and then the entire building (*WTC 7*) comes down uniformly, smoothly as fast as a bowling ball falling out of the sky. **This is a symmetrically straight down into its own footprint in the exact manner as a classic controlled demolition, which we have all seen on YouTube or tv, the old hotels in Las Vegas for instance.** So, it looks exactly like that and yet NIST in their report attempts to explain it away as a progressive collapse due to fire.”

Taking Gage at his word, let’s consider the 06/14/2016 “Riviera Hotel & Casino Implosion in Las Vegas” (<https://youtu.be/rSpGolza6fM?t=106>) starting @ Time Index 1:44. The image at the right is immediately prior to the demolition charges being triggered. Watching the video, you will faintly hear and see sequences of interior cutting charges. These start @ time index 1:46 underneath the Riviera sign and then proceed throughout the building.

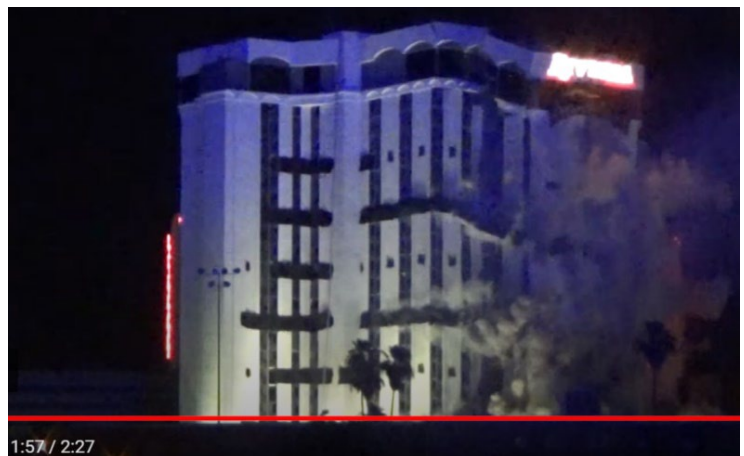

Next, there is a **sequential collapse** (not a uniform, global, simultaneous collapse) of the Riviera building’s exterior walls, followed by the remainder of the building coming down into its own footprint.

(Numerous videos of the WTC 7 collapse illustrate a uniform, global, **simultaneous, silent** collapse of not just the exterior walls, but the entire building. This stands in direct contravention of the destructive mechanism being a ‘classic’ controlled demolition and implosion.)

At time index 1:55 much louder, exterior column charges are set off underneath the Riviera sign and proceed throughout the building. The images in the Riviera Hotel video illustrate a classic controlled demolition and implosion with **sequential collapse** of the structure.

“The only thing necessary for the triumph of evil is for good men to do nothing.” Edmund Burke
Jeremiah 17: 9 *The heart is deceitful above all things, and desperately wicked: who can know it?*

Continuing with excerpts from the Attwood interview of Gage...

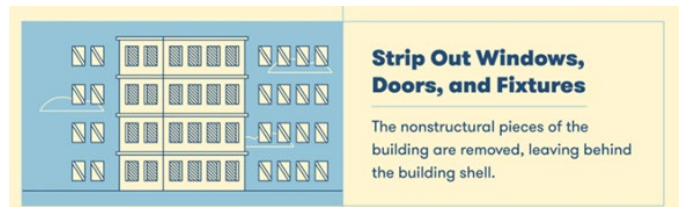

Richard Gage @ Time Index 8:57: “We also do it in our landmark documentary *911 Explosive Evidence, Experts Speak Out* and we’ve also made a film about the finite element analysis that’s been done by University of Alaska (*Fairbanks*) by Professor Leroy Hulsey, one of the top control (*sic*) demolition experts in the country ... excuse me. I got that backwards ... one of the top forensic structural analysts in the country and he has dismantled the NIST thesis as well, concluding in this four-year study that it (*WTC 7*) could not have been destroyed by fire according to NIST theory or progressive collapse for that matter. Their (*Hulsey et al*) conclusion was that all of the columns in the building had to have been removed basically at once in order for this building to collapse in the manner that it did. And we are talking within a second of each other. Well fire does not have that precision let alone that capability to destroy columns. Fire never brought down a steel frame skyscraper ever in the history of these buildings, a hundred-year history. These steel frames are fire protected with cementitious fireproofing. They don’t ... uh ... they don’t collapse in fires. So, we have a real problem with the NIST theory and as a result we have submitted a request for correction. In this country we can do that with agencies that commit fraud like this and we are in an appeal process now with NIST and we are about ready to sue them as well if that appeal does not yield truthful results.”

Shaun Attwood @ Time Index 10:54: “So videos I have seen of fireman talking about **explosions in the basement of one of the buildings. I am wondering if that corroborates what you are saying** or whether you’ve actually spoke (*sic*) to any of these fire people?”

Richard Gage @ Time Index 11:08: “Well there are **plenty of witnesses of explosions of the basements**, which shouldn’t be and isn’t according to the official story and yet in the documents, the documentaries that I mention we go into quite a bit of detail and eye witness testimony about just that, one of which was Willie Rodriguez, **a janitor in the World Trade Center North Tower**, he was standing on the floor in the basement at the B-2 level, 2 levels down and he hears an explosion and he feels it, it pushes the floor up and so the guy comes running in ... Explosion, Explosion ... his skin is ripped off his arms and there were many witnesses to all of this. And then interestingly about 7 seconds later he hears what he referred to as a ‘Pow’ from up above and **that is the plane hitting the building**. So indeed, there were explosions in the basement prior to the plane even hitting the building as well as after the plane hit the building explosions throughout the World Trade Center complex, in fact witnessed by now 156 documented eyewitness statements, the work of Professor Graeme MacQueen in which they describe explosions before the towers came down. In fact, most of them immediately before the towers collapsed. And they are very specific about the order of these events. It’s absolutely fascinating and this is backed up by the seismic evidence which shows that the timing of the explosions in the basement occur again several seconds before the plane hit the building. This is very well documented by Andre Russo in 2012 ... and a mechanical wave geologist, author of 50 peer reviewed papers and so we have taken this fascinating study of the seismic evidence and included in part 2 of the 3-part series *911, An Architects Guide, A 3 Part Series*. This is for lay people and architects as well. And then the explosions before the collapses is (*sic*) also very well documented seismically by Andre Russo.”

AE911 sued NIST regarding WTC 7 alone, not the Twin Towers. Attwood asks if “explosions in the basement of one of the buildings” corroborate what Gage has been saying about ‘controlled demolition’ as an explanation for WTC 7. Gage seamlessly pivots his song and dance toward ‘explosions’ at the Twin Towers, never returning to WTC 7 in the remainder of the interview. Remember, controlled demolitions employ numerous cutting charges to sever interior and exterior columns resulting in a tightly choreographed destruction with those explosions being its soundtrack.

Gage declaring the WTC 7 destruction to be a ‘classic controlled demolition’, when there were no audible explosions immediately before its collapse, is intentionally deceptive. When and how explosive charges could have been installed in WTC 7, which housed the largest CIA field office outside of Langley, Virginia? The non-structural building content of WTC

1, 2 and 7 had not been evacuated either. Desks, chairs, filing cabinets, HVAC ducting and equipment, plumbing and pumps, toilets and sinks, electrical conduit and electrical wiring, windows, doors, and non-load bearing walls are always removed before any ‘controlled demolition’ is even attempted (<https://www.bigrentz.com/blog/demolishing-a-building>).

Any forensic investigation (criminal, engineering, financial, transportation) requires satisfactory explanation of anomalous evidence before conclusions can be rendered. In the next two video clips, you will not see and not hear any explosions immediately prior to the collapse of WTC 7. It came down uniformly, simultaneously and not in a sequential collapse. The WTC 7 debris pile was approximately 20’ tall and not **15% of 741’ => 111’**. **Details matter!**

“There is nothing more deceptive than an obvious fact.” Arthur Conan Doyle

Mark 13:5 *Jesus began by telling them, "See to it that no one deceives you."*

The first WTC 7 ‘collapse’ video is 0:23 long and titled, *WTC 7 Collapse Full - Do you hear explosives?* (<https://youtu.be/xrzeN-wvHD4>). Fortunately, both videos have almost identical vantage points and record sound of the event. At time index 0:00, smoke And /or fumes are pouring from the far side of WTC 7.

The taller penthouse structure starts to disappear @ time index 0:03 and is gone by time index 0:05. There were no sounds of explosions throughout the disappearance of the penthouse.

At time index 0:07, the shorter, longer structure located on the roof, to the right of the penthouse, starts to disappear.

Note: Not any of the WTC 7 exterior windows had been removed prior to it coming down. In any Conventional Controlled Demolition (CCD) of an office building like WTC 7, all exterior windows and all interior non-load bearing elements/contents of the building are removed to ensure that the kinetic energy of the falling structural elements is not absorbed and cause CCD to fail in bringing the building to the ground.

By time index 0:09, both the penthouse and the longer, shorter structure to the right of the penthouse are gone.

Immediately after the roof structures have fully disappeared, the full ‘collapse’ of WTC 7 commences @ time index 0:11. At time index 0:12, WTC 7 has simultaneously and uniformly fallen through about 10-12 floors.

By time index 0:15, WTC 7 has fully disappeared behind the buildings in the foreground. There were no sounds of explosions immediately prior to or during its collapse.

“Silence in the face of evil is itself evil. God will not hold us guiltless.

Not to speak is to speak. Not to act is to act.” Dietrich Bonhoeffer

Proverbs 16:25 *There is a way which seems right to a person, but its end is the way of death.*

The second WTC 7 ‘collapse’ video is 2:00 long and titled *Ocean Tower and WTC 7 Comparison* (<https://www.youtube.com/watch?v=j-uyuHPaniY>). The first portion is the controlled demolition of a 37 story, unfinished structure on South Padre Island, Texas. It was brought down on December 13, 2009, by Controlled Demolition Inc. and The Loizeaux Group of Companies. Staccato explosions start @ time index 0:13. The building comes down in a sequential pattern and is on the ground by time index 0:27. A blue background screen with white text then pops up and asks, “If you consider the idea that WTC 7 (47 stories) underwent controlled demolition on 9/11, what is missing from this clip?”

At left is Barbara Crowley, NYU Medical Center (nurse?) @ time index 1:12. Behind the white bus are the same foreground buildings seen in the previous video. At time index 1:29 the roof top penthouse structures have silently disappeared, as in the prior video. When WTC 7 starts to come down (all the walls falling simultaneously without any explosions, no aural signature) everyone around her gasps. And then she turns around.

With the camera looking over the top of her head (below image), she asks what just happened and is told WTC 7 just went down. Understandably, she is in shock like everyone else.

Controlled demolitions have precisely engineered and triggered explosions intending the building collapse to be a sequential cascade in a particular direction. For smaller buildings, the debris pile is approximately within the building footprint as before the demolition. Taller buildings spill more outside of the original footprint. And if the building is too tall, it is taken apart and not explosively deconstructed ... blown up.

The assertions made by Gage/AE911/Hulsey/et al that WTC 7 was brought down by ‘classic controlled demolition’ are risible at best. Physical evidence overcomes virtual simulations or animations no matter how pretty the pictures or how many times the false story is projected into the public. Submitting false information in

a court action, which AE911 has done, creates potential legal exposure for that party. Worse still, it delays and damages the effort to bring the real perpetrators to justice. Gage/AE911 have been at this for over a decade. Are they guilty of naïve misinformation or purposeful disinformation?

Images at the left are from the movie Trading Places (<https://www.youtube.com/watch?v=hYFViWnEq70>). They anchor the mind’s eye in the staggering height and iconic architecture of the Twin Towers. WTC 3 is behind and over Murphy’s left shoulder. The trident shaped lower columns of WTC 2 frame Akroyd. WTC 1 was 110 stories and 1368’ tall. WTC 2 was 110 stories and 1362’ tall. WTC 3 was 22 stories and 242’ tall.

BEFORE the Twin Towers were disappeared.

Lidar image with building outline **AFTER** the Towers disappeared.

“The material expenditures on the towers were enormous; **192,000 tons of steel**, **425,000 cubic yards of concrete**, **43,600 windows** with **572,000 square feet of glass**, **1,143,000 square feet of aluminum sheet**, **198 miles of ductwork**, and **12,000 miles of electrical cable**.

The towers also provided an extraordinary employment opportunity for the construction workers of the region. More than 3,500 people were employed continuously on-site during construction.

A total of 10,000 people were involved in its construction. Tragically, 60 people were killed during construction.” (<https://rarehistoricalphotos.com/twin-towers-construction-photographs/>)

Job 29 16 I was a father to the poor, and I investigated the case which I did not know.
17 I broke the jaws of the wicked and rescued the prey from his teeth.

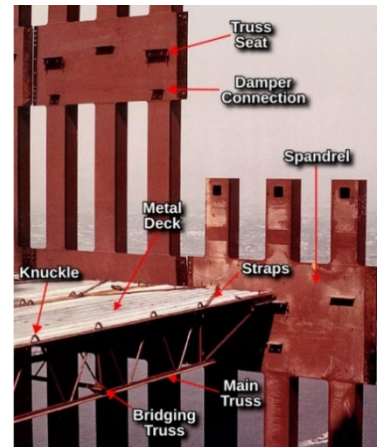

Ephesians 6:12 For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.

The below image was taken before any clean up activity had started. The center foreground is all that remains of the 1368' tall WTC 1 Tower. **Controlled demolition of WTC 1 should have produced a debris stack height of 15% x 1368' => 205', more than twice height of WTC 6.** The WTC 1 debris pile within the remaining perimeter columns is less than 20' tall. A pancake collapse of WTC 1 would have generated a debris stack the same or higher than controlled demolition. Neither controlled demolition nor a pancake collapse can cause steel, aluminum and concrete to dis-integrate into dust. Immediately behind the scant remains of WTC 1 is the gutted WTC 6. Behind and to the right of WTC 6 are the remains of WTC 7. The WTC 7 debris stack is also significantly less than half of the 93' height of WTC 6.

Along with the chamfered corner columns, there were 19 tridents per side and 57 columns above the 3 into 1 columns. Above ground, the exterior column length was an estimated 304,000 linear feet and the core column length was an estimated 64,800 linear feet for a total of **368,800'** or **69.8 miles**, sufficient to reach **across New Jersey and into Pennsylvania**. The network of exterior columns was bolted together in panels (approximately **4,180 in total**) of 3 columns with overlapping steel belts or spandrels. The Truth Has Consequences

“A lot of people are saying we should somehow control or restrict arms. And I would ask the question: Are we under any less a threat of tyranny from Washington than we were in 1787? I would say no.” Walter Williams
Ezekiel 33:6 *But if the watchman sees the sword coming and does not blow the trumpet, so that the people are not warned, and the sword comes and takes any one of them, that person is taken away in his iniquity, but his blood I will require at the watchman's hand.*

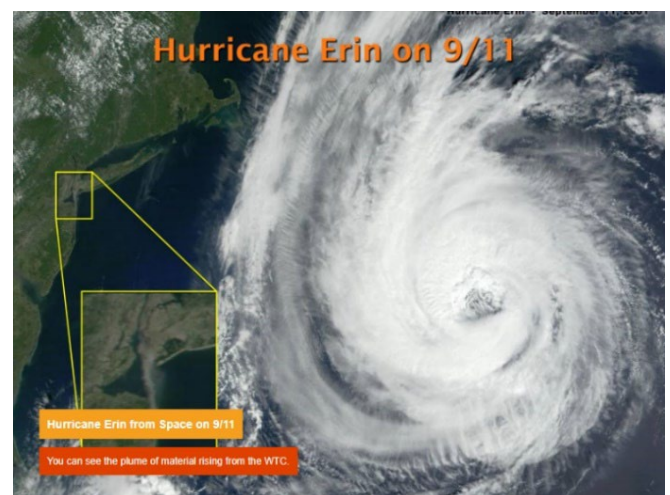

The information contained within these few pages is sufficient and necessary to declare that both the official 911 narrative and controlled demolition explanations for WTC 1, WTC 2 and WTC 7 are indisputable frauds. Simply stating the official story to be false is specious virtue signaling. By proclaiming provably incorrect destructive mechanisms (controlled demolition, bombs-in-the-buildings, nano-thermite) for WTC 1, 2 and 7, Gage, AE911 et al risk immunizing the actual perpetrators under the double jeopardy prohibition. Disinformation 911 Truthers (Richard Gage, Leroy Hulsey, Alex Jones, David Ray Griffin, Stephen Jones, James Corbett, ... ad nauseam) and their sycophant followers do serious damage to the cause of bringing the actual 911 perpetrators to justice.

Only Dr. Judy Wood has provided consistent, accurate, all-encompassing explanations for what actually took place at the World Trade Center Complex on September 11, 2001, see these videos at https://youtu.be/M_plOvvUpi8 or <https://youtu.be/KypFDntRv8>. Two of the many topics explained in her magnum opus **Where Did the Towers Go? - The Evidence of Directed Free Energy Technology on 911** (<https://www.drjudywood.com/wp/>) are Toasted Cars (1/2 to 3/4 of a mile from Ground Zero,) and Hurricane Erin (headed directly for NYC land fall later that day).

The US FedGov explanation for what happened on 911 was and is a false flag **LIE!** The subsequent Global War **OF** Terror against Afghanistan, Iraq, Yemen, Libya, Syria, etcetera and We the People was launched because of that **LIE!** Millions of innocent lives and trillions of dollars have been senselessly wasted. Since 09-11-2001 and until today, every past and present member of the House, Senate, Executive, Judiciary, Intelligence Services, civilian and uniformed US Military command structure have undeniably covered up 911 Reality, thereby committing prima facie high treason ... along with launching the totalitarian Surveillance State via the USA PATRIOT Act. 911 was/is a trauma-induced, mind control operation. The correct determination of **WHAT HAPPENED** must precede any declaration of **WHO ACTUALLY DID IT**.

“If you find from your own experience that something is a fact and it contradicts what some authority has written down, then you must abandon the authority and base your reasoning on your own findings.” Leonardo da Vinci

As self-governing citizens of a constitutional republic (it is **NOT a democracy**), We the People are ultimately responsible. We the People are likewise guilty of the war crimes and mass murder committed by our agents, the States, US FedGov and military. We the People must publicly demand and accomplish the cessation of all overseas military actions and return all troops to the fifty states immediately. Then, We the People must hold **ALL** the perpetrators and **ALL** those in authority fully accountable for crimes against the peace. Biblical Christians are to be truth tellers. Taken in February of 2023, this image is one of several 'before and after' illuminated panels found within the 911 Memorial in NYC. For almost 22 years, neither the **FBI** nor **ANY agency of the UNITED STATES** has acknowledged or investigated the destruction of Buildings 3, 4, 5 and 6, the WTC Orphans. What caused their destruction? Did insurance pay for the losses? Who owned these four buildings on 09 11 2001? Who bought the property after they were demolished? Who owns these 4 buildings now? Why has this vital 'intelligence information' been buried from We the People? **Facts have Trajectory and The Truth Has Consequences.**

Although egregiously wrong in its explanation (falling debris of WTC 2), at least Wicked-Pedia acknowledges that WTC 4 was destroyed on 09 11 2001.

The 4 WTC remnant is visible at the southeast corner of Ground Zero (just off the upper right corner of the **WTC 2 red outline**). Footprints of WTC 1, 2 and 7 are highlighted, but **NOT 3, 4, 5 and 6?!**

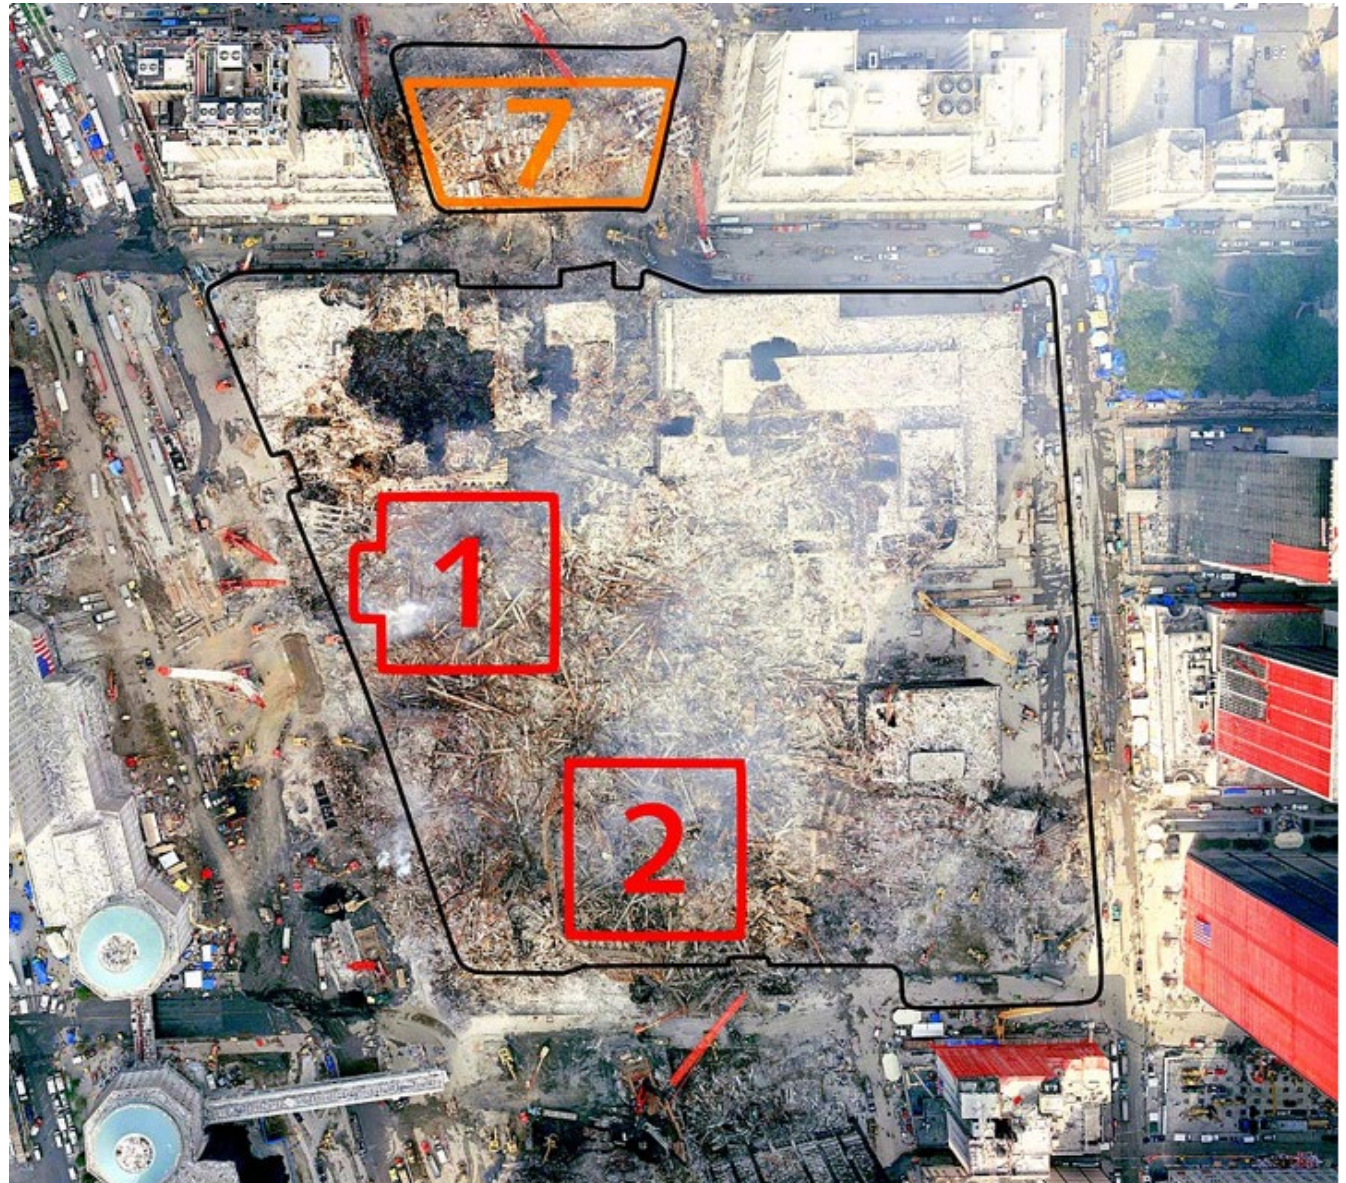

What caused the cored out, EMPTY holes in WTC 6 (between 1 and 7) and WTC 5 (immediately to the right of WTC 6)?

Falling debris from WTC 1 did not cause these ‘holes’ in WTC 5 and 6, as they are empty of fallen debris down to basement level.

How could falling steel columns from WTC 2 flatten down to ground level the nine stories of WTC 4 and not be evident in this picture?

WTC 4 was between WTC 2 (1362’ tall) and Church Street. For scaling purposes, the footprint of each of the Towers was about a square acre (208.7’x208.7’).

If WTC 2 had fallen over and crushed WTC 4, then almost 1,000 feet of WTC 2 would have crashed into 1 Liberty Plaza (immediately across Church Street from WTC 4) ... but there is no evidence of WTC 2 having fallen over.
